

Bundle and SAVE 20% on Moxa (Promote Code: BeSmart)

Get Connected Smart Factory Campaign (3/1/2017 to 6/30/2017)

Bundle Connectivity Products with an 8-port Switch (EDS-208A)

Customers who previously bought any of Moxa's Connectivity PRODUCT (NPort, ioLogik, or MGate) could consider Moxa's EDS-208A **for a 20% discount on bundles.**

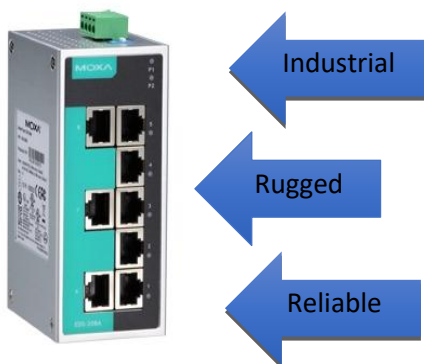

Are you connecting the PRODUCT to a switch?

IF YES: Moxa's EDS-208A has some really unique capabilities, like:

- **Industrial:** Din-rail or panel mount. Power input: redundant 9.6 to 60 VDC.
- **Reliability:** 100% burn in testing and 5-year warranty.
- **Certifications:** UL508 and hazardous locations (Class 1 Div. 2/ATEX Zone 2).

If you're interested in trying the Moxa switch, contact Neutron with Promote Code: BeSmart.

Bundle Switch Products with a Device Server (NPort), Smart IO (ioLogik), & Protocol Gateway (MGate)

Customers who previously bought a Moxa Ethernet switch could consider Moxa's NPort, ioLogik, or MGate for a **20% discount on bundles**.

Moxa makes more than great switches, we also connect field devices. **Do you have any needs to connect analog/digital I/O to your network?**

ioLogik 1200 Series

IF YES: Moxa's has ioLogik Ethernet based IO modules that have some really unique features, including:

- **Variety of Models:** 4 to 16 I/O, 0-10VDC, 4-20mA, RTD & Thermocouple
- **Supports Many Protocols:** EtherNet/IP, Modbus TCP, SNMP and RESTful API
- **Easy Setup:** Built-in web interface
- **Flexible Power Input:** 12 to 36VDC
- **Compact:** Thin DIN-rail or wall/panel mount saves panel space

If you're interested in trying it out, contact Neutron with Promote Code: BeSmart.

By any chance, **do you need to connect Modbus serial devices?**

MGate MB3180

IF YES: Moxa's Modbus Ethernet gateway has some amazing capabilities:

- **Connects to Ethernet:** Monitor and control Modbus serial devices over Ethernet
- **Highly Configurable:** For both master and slave Modbus RTU devices
- **Easy to Use:** Transparent TCP to RTU conversion means no programming
- **Quick Setup:** Software selectable RS-232/422/485 serial interface
- **Supports 16 TCP masters:** Up to 32 simultaneous requests per master

If you're interested in trying it out, contact Neutron with Promote Code: BeSmart.

Any needs to connect RS-232/422/485 devices?

NPort 5150A

IF YES: Moxa has some serial-to-Ethernet device servers that have unique capabilities:

- **Remotely Monitoring/Control:** Almost any RS-232/422/485 device on Ethernet
- **Compact:** About the size of a deck of playing cards
- **Rugged:** Surge protection on serial, Ethernet, and power connections
- **Easy Setup:** Using built-in web interface
- **Integrated Virtual COM-port Software:** Integrate legacy PC applications
